ACTION ITEMS

***Next Meeting:*** April 25 - 26, 2000  
Lake Guntersville, AL

***Primary Agenda:*** Review of M-2 EE/CA, T-38 Work Plan, MBTI Exercise

***March Meeting Summary:***

Finalize Agenda and Minutes - Draft January minutes were reviewed, revised, and accepted with amendments as final. The BCT also added some items to the agenda parking lot.

Action Items - The BCT reviewed January's action items, and updated them. The updates are presented in Attachment D.

Anniston Army Depot - At 0800, Ron, Lisa, Steve, Ellis, David, Chris, and Philip toured the chem/demil facility at the Anniston Army Depot

Afternoon Activities - At 1300, the group met at FTMC's conference room. Bart was attending funeral of Hugh Vick's wife, therefore he was not present. Jeanne was in Denver on other business matters that could not be postponed. The team decided to postpone check-in until 3/22/00 so that Bart could be in attendance. Ron and Lisa attended a meeting with TRADOC and the JPA for the remainder of the day. Steve, Ellis, Chris, David, and Philip toured the ranges at Baines Gap Road and Choccolocco Corridor for the remainder of the day.

Approved Agenda for the 22<sup>nd</sup>:

- Approve January minutes
- Action Items
- Comment Resolution for M-2 Work Plan
- Well Abandonment
- Screening Criteria
- Fill Area EE/CA update
- Prioritization of work
- CWM EE/CA
- Range J update
- RI/NFA-ROD
- Indoor Pistol Ranges

Parcel 75 - Bart requested a letter from the army stating that Parcel 66 would be broken out of Parcel 75. The Army will move forward with an RI at Parcel 66 to address vinyl chloride concentrations in the groundwater.

**CONSENSUS: The army will send a letter to the regulators when the BCT has agreed to forward a site to a RI. This will be the case for all parcels that go forward to a RI without an SI report.**

In related discussions, the group discussed how SI data would be used in RI efforts. **CONSENSUS: Sample data from the SI sample collection effort can be used in the RI risk assessments when appropriate. The SI data will be discussed in chapter 2 of the RI work plan.**

Comment Resolution for M-2 Work Plan - Bart gave his proxy to Chris Johnson. Bart does not need to provide a concurrence letter for this work plan. All comments were discussed and resolved. The work plan will be finalized and fieldwork initiated.

Well Abandonment - The team agreed to abandon wells at the CDTF. **CONSENSUS: The team agreed that monitoring wells would not be abandoned at any particular parcel until a NFA has been received for that parcel.**

Screening Criteria - IT will complete the SSSL screening document the week of March 27 and submit it to the BCT as a draft document for their review.

NFA Documents - **CONSENSUS: The text of the NFA documents will state that a parcel is clear for unrestricted use if it passes the residential screen.**

Fill Area EE/CA Update - Steve gave the BCT an update of the on-going activities being conducted for the Fill Area EE/CA.

CWM EE/CA - RI/NFA-ROD - Chris was concerned that there was fieldwork being conducted by Huntsville at the CWM EE/CA sites. It was explained to Chris that the only work that was conducted was brush clearing. Chris was okay with that explanation. However, Chris was concerned that Huntsville was preparing to proceed with the CWM EE/CA fieldwork without responding to ADEM's comments. Lisa and Ron assured Chris that Huntsville would not proceed with the work until the comments have been resolved. **CONSENSUS: Huntsville will be invited to each of the future BCT meetings.**

IT has recently prepared a work plan for HTRW RI activities at several of the CWM sites. IT will respond to comments on the work plan when they are received. However, when the document is submitted final, the document will be separated into two documents. One document will contain sites that have not had RI work previously completed and will be called an SI Work Plan. The second document will contain sites that have had RI work completed previously. This document will be called a Supplemental RI Work Plan.

Range J and DERA Site Update - Ellis, Steve, and Lisa gave the team an update on the status of the investigations being conducted at the DERA sites found on Pelham Range.

Indoor Pistol Ranges - The BCT wants NFA documents for the Indoor Pistol Ranges; one for each building. Therefore, there will be 2 NFA documents prepared. IT will prepare these documents as quickly as possible.

Prioritization of Work - The group discussed and agreed to the following work priorities:

- 1. Credit Union ATM - Concurrence to FOST Revision (3/31)
- 2. M-2 EE/CA (3/31)

- 3. JPA FOST (4/30)
- 4. SSSL and Background Concentrations Summary Report (April BCT meeting)

Tier II Representative - The team discussed having a Tier II Representative at each of the BCT meetings. The question was raised 'why do we need a Tier II Representative?' The decision was made for Bart, Chris, and Ron to ask each of their respective Tier II contacts why a Tier II representative should be present at the BCT meetings. The topic will be discussed at the April meeting.

Facilitation Exercises - Attachment F provides a description of the facilitator's observations of the group's behaviors.

Future Meetings - April 25 - 26, at Lake Guntersville, AL; May 17 - 18, EPA Region IV offices in Atlanta; June 20 - 21, Ft. McClellan, AL.

### FACILITATOR NOTES AND OBSERVATIONS

#### **Meeting Summary**

The BCT met on March 21-22, 2000, at Fort McClellan. The first day was devoted to two tours, first of the Chemical Weapons Decommissioning Facility and then of several ranges and impact areas northeast of the base. The team met briefly that day to create an agenda for the second day.

Philip Stroud, named the new ADEM project manager effective May 1, 2000, joined the team on both days, and Chris Johnson attended as well and will continue to attend through the May meeting. This plan seems to allow for an orderly transition and a chance for the team and Philip to work together in two meetings before he assumes his new position.

The BCT had a good meeting on March 22, with a full agenda and several complex issues. In their reflections on the meeting at the end of the day, team members themselves said that it had been a productive meeting. Evidently the progress made toward a LUCAP and risk assessment criteria had made a large impact on the team's ability to focus on its work and find agreement even though members have naturally different perspectives and interests.

Some of the team's decisions were process-related. At Chris's suggestion, the team agreed to invite a Huntsville representative to join the team, in order to work more closely together. Chris and Bart questioned the decision made in their absence at the January meeting to have a Tier II representative at BCT meetings, and Ron indicated that he would simply let Rick Aiken know of the BCT meeting dates. This issue was not fully resolved and may need to be discussed again. The team also decided that with Philip's arrival it would be useful for everyone to revisit the Myers-Briggs Type Indicator and agreed to retake the questionnaire in the next month and have a mini-workshop on the MBTI at the May meeting. And finally, with Lisa's guidance the team set work priorities for the next two months and agreed on a schedule for document review. The larger task of setting goals for the rest of the year still needs to be done, but this was a good beginning.

Two ground rules need some attention: #1, Start and finish meetings and breaks on time, and #7, Do homework/come prepared.

My general impression was that every member contributed in significant ways to the team's work in this meeting. There was a good deal of humor, laughter, and good will, and when differences arose team members controlled the heat level.

### DOD MEASURES OF MERIT FOR CONSIDERATION IN THE DEVELOPMENT OF PROJECT GOALS AND METRICS

The following DOD Measures of Merit under the BRAC Program (provided by Lisa Kingsbury) may provide a starting point for consideration in the development of goals and metrics for the Ft. McClellan project. Lisa's Email of 12/10/97 listed numerous Measures of Merit for various programs; the BRAC Program Measures of Merit are listed below:

#### ***MoM1: Relative Risk Reduction***

The number of sites that are classified as high, medium, and low relative risk, and as RC or NFA

#### ***MoM2: Restoration***

The number of acres that are transferable from DOD's control according to the requirements of CERCLA

#### ***MoM3: Compliance***

The number of acres for which closure-related compliance projects have been completed

#### ***MoM4: Planning***

The number of acres that have completed the environmental analysis and decision documents for disposal and reuse of property that are required under the National Environmental Policy Act (NEPA)
