Alabama Department of Environmental
Management (ADEM)
Hazardous Waste Branch, Land Division
P.O. Box 301463
Montgomery, Alabama 36130-1463

Dear Mr. Cobb:

This letter transmits the annual report, required by the Land Use Control Assurance Plan (LUCAP), reflecting the status of land use controls (LUCs) established for properties on the former Fort McClellan. The LUCAP Appendix A, listing sites on the former Fort McClellan where LUCs constitute either a part of or the entire interim or final remedy, is updated and included at Enclosure 1. The LUCAP Appendix D, listing agency points of contact, is updated and included at Enclosure 2.

This letter affirms that LUCs for which the Army remains fully or partially responsible have been effective in protecting human health and safety. Daily security checks are performed by Transition Force security personnel. Warning signs are replaced when found to be damaged or missing. The Transition Force security personnel and Fish and Wildlife Service personnel note occurrences of sporadic trespassing and warn trespassers to stay out of the restricted areas.

Because ADEM requires construction support be provided during construction activities on the M1.01 Parcel and M3 Miscellaneous Property (Enclosure 3), and the Eastern Bypass "Y" Area Junction (Enclosure 4), the areas were added to Appendix A.

The Joint Powers Authority (JPA) has responsibility for LUCs at many of the sites as shown on Appendix A. The JPA submitted to ADEM the Land Use Control Effectiveness Report (LUCER), dated March 2008, which addresses those sites. In accordance with the September 2007 Environmental Services Cooperative Agreement between the Army and the JPA, LUC responsibility for Training Area T-5 Sites, Parcels 511(7) and 512(7), now lies with the JPA. These two parcels are included in Enclosure 12 of the FOSET LUCIP and should be included in the next iteration of the LUCER. In addition, the M1.01/M3 Miscellaneous Property and the Eastern Bypass "Y" Area Junction as described above, require final LUCIPs and should also be added to the next iteration of the LUCER.

Copies of this correspondence with enclosures were provided to Mr. Doyle Brittain, EPA Region 4; Ms. Miki Schneider, JPA; Ms. Michelle Klomp, Matrix Environmental Services; and Mr. Steve Miller, U.S. Fish and Wildlife Service.

For additional information, please contact Mrs. Lisa Holstein, lisa.holstein@us.army.mil, 256-848-7455.

Sincerely,

Scott J. Bolton
Site Manager
