128F	1978		Underground Storage Tank	7	4	34(4)PS							<p>One 4,000-gallon heating oil UST was removed and replaced in 1996. The removed tank had a hole on the northeast end of the tank bottom. Contaminated soil was excavated and stockpiled. The stockpiled soil was sampled and analyzed for TPH. Results indicated TPH levels of 854 ppm. Approximately 16 cubic of contaminated soils were stockpiled to await thermal volatilization.</p> <p>A UST closure assessment was conducted. Three subsurface soil and one groundwater sample was collected and analyzed for BTEX and TPH. UST closure assessment results indicated that there are no chemicals associated with the site that present an unacceptable risk to either human health or the environment. "No Further Action" is required.</p> <p>Leased to the City of Anniston (Parks and Recreation)</p>

A "No Further Action" is required for the site.  Transferred under the EDC to the JPA (First CERFA Parcel Transfer).
202	1957	12000	Storage Group Installation	7	4	1(4)PS/PR 64(3)HS/PS/HR (P)/PR(P)		X					One 2,000-gallon waste oil tank was installed in 1982. The tank and associated piping were closed in place and replaced by a 2,500-gallon tank in 1994. During removal activities, 5 cubic yd of soil was removed and soil samples collected. A TPH concentration of 6,000 ppm was detected in stockpiled soils. Four monitoring wells were installed and groundwater sampled. A UST closure report was prepared.  Site investigation results indicated that no chemicals associated with the site present an unacceptable risk to either human health or the environment. A "No Further Action" is required for the site.  Transferred under the EDC to the JPA (First CERFA Parcel Transfer).
203	1957		Load/Unload Dock/Ramp	7	3	64(3)HS/PS/HR(P) )PR(P)							Site investigation results indicated that no chemicals associated with the site present an unacceptable risk to either human health or the environment. A "No Further Action" is required for the site.  Transferred under the EDC to the JPA (First CERFA Parcel Transfer).

326D			Diesel Ust	7	3	5(3)PS						One 500-gallon diesel UST was installed in 1975 and was removed in 1991. Soil samples were collected. Lead concentrations ranged from 15 to 26 ppm, TPH concentrations ranged from 140 to 530 ppm. A closure report was prepared.  Site investigation results indicated that no chemicals associated with the site present an unacceptable risk to either human health or the environment. "No Further Action" is required for the site.	
326G			Mogas Fuel Ust	7	3	5(3)PS						One 500-gallon gasoline UST was installed in 1975 and was removed in 1991. Soil samples were collected. TPH concentrations ranged from 15 to 26 ppm, TPH concentrations ranged from 140 to 530 ppm. A closure report was prepared.  Site investigation results indicated that no chemicals associated with the site present an unacceptable risk to either human health or the environment. "No Further Action" is required for the site.	
328	1941	11616	Access Facility	7	3	75(3)HS/HR(P)/P S/PR(P)		X				Site investigation results indicated that no chemicals associated with the site present an unacceptable risk to either human health or the environment. "No Further Action" is required for the site.	
335	1941	6933	Maintenance Storage	7		66(7)HS/HR		X				A radiological survey was conducted and based on the results, the building was released for unrestricted reuse.  Site investigations to determine presence or absence of contamination were conducted. A remedial investigation to characterize the nature and extent of contamination is currently underway.	
336	1941	624	Heating Plant Building	7		66(7)HS/HR		X				Site investigations to determine presence or absence of contamination were conducted. A remedial investigation to characterize the nature and extent of contamination is currently underway.

1075	1973	180	Heat Plant Oil	7		235(7)PS/PR(P)							A site investigation to determine presence or absence of contamination is currently underway.  Licensed to the Alabama Army National Guard.
1076	1954	2298	Heat Plant Oil	7	3	235(3)PS/PR(P)		X					A site investigation to determine presence or absence of contamination is currently underway.  Licensed to the Alabama Army National Guard.
1076F			Undeground Storage Tank	7	3	14(3)PS							Two 15,000-gallon USTs were removed in 2000.  Licensed to the Alabama Army National Guard.
1077	1976	10,681	Museum	7	3	15(3) 167(3)PS							Transferred under the EDC to the JPA.
1077F			Museum	7	3	167(3)PS							One 1000-gallon heating oil tank was installed in 1977 and removed in 1989. Soil and groundwater sampling was conducted at the time of closure. Soil analytical results indicated TPH concentrations ranging from 10 to 1,200 ppm. BTEX and PAHs were not detected in both soil and water. Lead was detected in three of the four wells at levels exceeding 20 ppb ADEM MCL.  One 1000-gallon heating oil tank was installed in 1987. The tank and associated piping were removed in 1996. During removal activities, soil was excavated. Soil and groundwater sampling was not conducted, however, a closure report was prepared.  A UST closure assessment was conducted. Three subsurface soil and one groundwater sample was collected and analyzed for BTEX and TPH. UST closure assessment results indicated that there are no chemicals associated with the site that present an unacceptable risk to either human health or the environment. A "No Further Action" is required.

				Previous	Reclassified			A	L	R	P	X	
1928F	1977		Heating Oil Underground Storage Tank	7	3	48(3)PS							A UST closure assessment was conducted. Three subsurface soil and one groundwater sample was collected and analyzed for BTEX and TPH. UST closure assessment results indicated that there are no chemicals associated with the site that present an unacceptable risk to either human health or the environment. A "No Further Action" is required.  Transferred under the EDC to the JPA (First CERFA Parcel Transfer).
1929	1977	15,750	Dental Clinic	1		161(1)		X					Leased to the JPA.
1929F	1996		Heating Oil Storage Tank	7	3	101(3)PS							Transferred under the EDC to the JPA (First CERFA Parcel Transfer).
1964	1985	75	Shelter Personnel	1		161(1)							Leased to the JPA.
1965	1977	63,267	Exchange Service Building	7	3	50(3)PS							A UST closure assessment was conducted. Three subsurface soil and one groundwater sample was collected and analyzed for BTEX and TPH. UST closure assessment results indicated that there are no chemicals associated with the site that present an unacceptable risk to either human health or the environment. "No Further Action" is required.  Transferred under the EDC to the JPA (First CERFA Parcel Transfer).
1966	1976	7,720	Post Office Main	7	3	51(3)PS		X					A UST closure assessment was conducted. Three subsurface soil and one groundwater sample was collected and analyzed for BTEX and TPH. UST closure assessment results indicated that there are no chemicals associated with the site that present an unacceptable risk to either human health or the environment. "No Further Action" is required.  Transferred under the EDC to the JPA (First CERFA Parcel Transfer).

Facility No.	Year Built	Area (sq.ft)	Design Use Description	CERFA Category		CERFA Parcel Label	Non-CERCLA Parcel Number	Non-CERCLA Issues					Remarks/Remedial Action
				Previous	Reclassified			A	L	R	P	X	
3281	1953	2750	Company Headquarters Bldg	1		161(1)	4Q-A/L(P)	X	X				Transferred under the EDC to the JPA.
3282		75	Shelter Personnel	1		161(1)							Transferred under the EDC to the JPA.
3290	1953	2250	Health Clinic	1		161(1)	4Q-A/L(P)	X	X				In 2000, spot removal of asbestos was conducted for the building. Transferred under the EDC to the JPA.
3291	1953	2000	Admin General Purpose	1		161(1)	4Q-A/L(P)	X	X				Transferred under the EDC to the JPA.
3292	1954	2000	Battalion Headquarter Building	1		161(1)	4Q-A/L(P)	X	X				Transferred under the EDC to the JPA.
3293	1958	9531	Chapel	1	3	58(3)PS		X	X				A UST closure assessment was conducted. Three subsurface soil and one groundwater sample was collected and analyzed for BTEX and TPH. UST closure assessment results indicated that there are no chemicals associated with the site that present an unacceptable risk to either human health or the environment. "No Further Action" is required.  Leased to the JPA.
3294	1953	192	Access Control Facility	7	3	29(3)PS/PR							Site investigation results indicated that no chemicals associated with the site present an unacceptable risk to either human health or the environment. "No Further Action" is required for the site.  Transferred under the EDC to the JPA (First CERFA Parcel Transfer).
3295	1987	2392	Admin General Purpose	1		161(1)	4Q-A/L(P) 11Q-R	X	X	X			Radon testing on the main level in 1994 and 1995 exceeded regulated levels of 4 pCi/L. Radon mitigation was performed and post mitigation results (1998) indicated radon concentrations well below EPA regulated levels. Leased to the JPA.
3297	1953	2750	Storage Group Installation	1		161(1)	4Q-A/L(P)	X	X				Transferred under the EDC to the JPA.
3298	1953	3861	Vehicle Maintenance Shop	7	4	30(4)PS/PR		X					Transferred under the EDC to the JPA (First CERFA Parcel Transfer).

## **APPROACH TO ENVIRONMENTAL JUSTICE ISSUES**

## **Approach to Environmental Justice Issues**

On February 11, 1994, President Clinton issued Executive Order (EO) 12898, *Federal Actions to Address Environmental Justice in Minority and Low-Income Populations*, (FR, 1994). The purpose of the EO is to avoid the disproportionate placement of adverse environmental, economic, social, or health impacts from Federal actions and policies on minority and low-income populations or communities. An element emanating from this order was the creation of an Interagency Federal Working Group (IFWG) on Environmental Justice comprised of the heads of 17 Federal departments and agencies, including the U.S. Department of the Army. Each department or agency is to develop a strategy and implementation plan for addressing environmental justice.

On April 21, 1997, the President issued EO 13045, *Protection of Children from Environmental Health Risks and Safety Risks* (FR, 1997). The EO recognizes that a growing body of scientific knowledge demonstrates that children may suffer disproportionately from environmental health risks and safety risks. These risks arise because children's bodily systems are not fully developed; because they eat, drink, and breathe more in proportion to their body weight; because their size and weight can diminish protection from standard safety features; and because their behavior patterns can make them more susceptible to accidents. Based on these factors, the President directed each federal agency to make it a high priority to identify and assess environmental health risks and safety risks that might disproportionately affect children. The President also directed each federal agency to ensure that its policies, programs, activities, and standards address disproportionate risks to children that result from environmental health risks or safety risks.

It is the Army's policy to fully comply with EO 12898 and EO 13045 by incorporating environmental justice concerns in decision-making processes supporting Army policies, programs, projects, and activities. In this regard, the Army ensures that it will identify, disclose, and respond to potential adverse social and environmental impacts on children, and minority, and/or low-income populations within the area affected by a proposed Army action.

For environmental justice considerations, these populations are defined as individuals or groups of individuals which are subject to an actual or potential health, economic, or environmental threat arising from existing or proposed federal actions and policies. "Low income" is defined as the aggregate annual mean income for a family of four in 1989 correlating to \$12,674.

Low income and minority population data was compared for Calhoun County, the eight county region of influence (ROI), and the State of Alabama. This comparative analysis is summarized in Table D-2. The

percent of the minority population in the Fort McClellan ROI (18.5 percent) is lower than that for the State of Alabama (26.4 percent) as is the percent of low income population. Talladega County had the highest percent minority population (31.3 percent) and also the highest percent of low income persons (20.1 percent), while Cherokee and Cleburne Counties had the lowest percent minority population St. Clair, Cleburne, and Calhoun Counties had the lowest percent of low income population.

Table D-2. Minority and Low Income Populations: Fort McClellan Environs. 1990

County	Total Population	Percent Non-White Population	Median Household Income	Percent Persons Below Poverty Level* (Includes Poor/Very Poor)	Percent Persons Below 50% of Poverty Level (Very Poor Only)

RE: Lead Based Paint Elaboration of 06/08/98 letter (attached)

Dear Mr. Levy,

As per our numerous discussions, the purpose of this letter is to provide clarity to a 06/08/98 letter from this office to you.

EPA still considers Lead Based Paint to be a Hazardous Material. However, under guidelines for property transfer, housing and other buildings containing Lead Based Paint in good condition is transferable. The Army is still required to notify the recipients of property that the property contains lead based paint.

Further, lead in soils, regardless of the source, is still considered a Hazardous Substance that requires remediation prior to transfer, providing of course that the levels of lead present a hazard to Public Health and the Environment. This includes but is not limited to ranges and drip lines.

The purpose of this letter is to document for Army files that EPA acknowledges that structures containing Lead Based Paint can be transferred.

I hope this letter provides the level of comfort needed by your office regarding transfer of property containing lead based paint.

Sincerely

Bart Reedy

RE: Environmental Baseline Survey

Dear Mr. Levy

I have reviewed the Environmental Baseline Survey (EBS) dated January 1998. I am in agreement with the determinations of property conditions with the following exceptions:

1. EPA considers all Ranges to be category 7 parcels. The rationale for this position has been presented to the Army on numerous occasions.
2. EPA considers Lead Based Paint (LBP) to be a hazardous material. Accordingly, EPA consider those properties contaminated or potentially contaminated with LBP to also be category 7 parcels.

Should you have any questions or if I can be of any assistance, please contact me at the letterhead address or at 404-562-8541.

Sincerely,

A handwritten signature in black ink, appearing to read "Bart Reedy", written over a horizontal line.

**RE: Final Environmental Baseline Survey (January 1998)  
Base Realignment and Closure Program  
Fort McClellan, Alabama**

Dear Mr. Levy:

The Alabama Department of Environmental Management has received and reviewed the Final Environmental Baseline Survey (EBS) for Fort McClellan dated January 1998. The Department concurs with the majority of the submittal with the following exceptions.

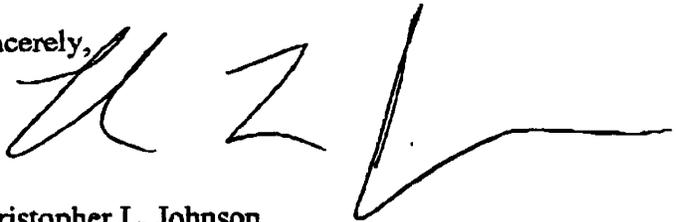

1. According to CERCLA, as amended by CERFA, the Army is responsible for "identifying real property on which no hazardous substances and no petroleum products or their derivatives were stored for one year or more, known to have been released, or disposed of." The January 1998 EBS concludes that no areas within the ranges contain hazardous substances, petroleum products or their derivatives. The Department argues that there are both known and potential releases of hazardous substances and petroleum products within the ranges of Main Post and Choccolocco Corridor. An example of a known release would be lead in soils within the pistol ranges, or explosives in soils and sediment, such as TNT or RDX, from artillery fire within the ranges. The Department is unclear as to how the Army intends to identify, investigate, and remediate (if deemed necessary) areas containing known or potential hazardous substances and petroleum products or their derivatives within the ranges. Our position is that ranges are not excluded from requirements set forth in CERCLA, CERFA and the NCP.

May 27, 1998  
Mr. Ronald M. Levy  
Page 2 of 2.

2. Lead-Based Paint in soils will be regulated as a CERCLA hazardous substance. All parcels that are suspect of containing LBP in soils shall be delineated and defined as a CERFA Category 7. If investigations within these areas reveal that human health and/or the environment have been impacted, then the appropriate remedial efforts should be taken to mitigate such impacts.

For any questions or concerns regarding this matter, please contact me at 334-271-7789 or facsimile at 334-279-3050.

Sincerely,

A handwritten signature in black ink, appearing to read 'C. L. Johnson', with a long horizontal stroke extending to the right.

## **ACTIVE OUTGRANTS**

FORT McCLELLAN  
ACTIVE OUTGRANTS  
MAIN POST

August 20, 2001

1. Easement to Alagasco recorded at Deed Book 3001, Pages 453-465 in the Probate Records of Calhoun County, Alabama.
2. Easement to Alabama Power Company recorded at Deed Book 2111, Pages 233-262 in the Probate Records of Calhoun County, Alabama.
3. Easement to Bell South Telecommunications recorded at Deed Book 2112, Pages 431-445 in the Probate Records of Calhoun County, Alabama.
4. Easement to the Anniston Water Works and Sewer Board recorded at Deed Book 2141, Pages 217-272 in the Probate Records of Calhoun County, Alabama.
5. Perpetual easement to the Ft. McClellan Credit Union for the constructing, operating, maintenance, repairing and replacing an automated teller machine as described in a Quitclaim Deed from the United States of America to the Ft. McClellan Credit Union dated September 19, 2000.
6. Easement to Tim Wells (DACA01-2-86-0171 with an expiration date of January 29, 2011) for an underground waterline.
7. Easement to Calhoun County 911 District (DACA01-2-94-0248 with an expiration date of January 31, 2019) for a radio communications site.
8. Easement to R. C. Cantor (DACA01-2-33-21FT with an expiration date of October 2, 2005) for two water lines.
9. License DACA01-3-00-285 with State of Alabama for Fort McClellan National Guard Enclave - Indefinite term. (Contains facilities on main post and Pelham Range.)
10. License DACA01-3-00-286 with State of Alabama for use of Building 1120, Egbert Hill Site, and the Ammunition Supply Point (ASP) - Indefinite term. (The use of Building 1120 and facilities at Egbert Hill site will continue until the Chemical Stockpile Emergency Preparedness Program (CSEPP) mission has been completed, approximately 2007. The use of the ASP facilities will continue until an ammunition transfer point has been constructed at Pelham Range.)
11. Permit DACA01-4-00-281 to US Department of Health and Human Services for use of Fort McClellan's Noble Army Hospital facilities in support of the health training component of the Department of Justice's Center for Domestic Preparedness. (Expiration Date: 30 September 2001, or upon completion of an Environmental Condition of Property and Army transfer of property to the grantee, whichever comes first.

12. Lease DACA01-1-99-644 with City of Anniston for public park and recreation purposes. Expiration Date: 24 August 2004 or until conveyance or transfer of all or a portion of the premises by the Army.

13. Master Lease DACA01-1-00-313 with Anniston-Calhoun County Fort McClellan Joint Powers Authority. Expiration Date: January 2005 but may be extended for additional 5 years.

## **STATEMENT OF CLEARANCE FOR M2 AREA**

DEPARTMENT OF THE ARMY  
HUNTSVILLE CENTER, CORPS OF ENGINEERS  
P.O. BOX 1600  
HUNTSVILLE, ALABAMA 35807-4301

REPLY TO  
ATTENTION OF:

CEHNC-DE (200-1c)

MEMORANDUM FOR Commander, U.S. Army Garrison, Environmental  
Section, ATTN: ATZN-ENV (Mr. Ron Levy),  
Building 215, 15th Ave, Fort McClellan, AL  
36205-5000

SUBJECT: Statement of Clearance for the M2 Parcel, Fort  
McClellan, AL

1. Enclosed for your use is the Statement of Clearance related to Ordnance and Explosives (OE) Removal Actions completed on the subject property. The U.S. Army Engineering and Support Center, Huntsville has reviewed the Final Removal Report and concurs with its findings. The report discusses the action taken and the OE items recovered from the property.
2. Based upon the actions taken, as documented in the Final Removal Report, it is recommended that the M2 parcel be made available for unrestricted use. Any residual risk remaining as a result of this removal action will be managed thru a deed notice. This deed notice will provide information on notification requirements in the event an OE item is encountered.
3. If you have any questions or comments regarding this submittal, please contact me at 256-895-1300 or Mr. David Douthat, OE Director, at 256-895-1510.

Encl

  
HARRY L. SPEAR  
COL, EN  
Commanding

**Statement of Clearance  
M2 Parcel, Fort McClellan, Alabama**

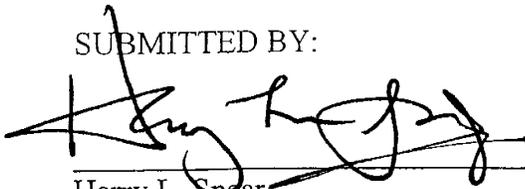

The M2 Parcel, located within the boundary of Fort McClellan, Alabama, has been given careful search and has been cleared of all dangerous and explosive ordnance reasonably possible to detect. The ordnance items described in the enclosed final removal action report were recovered from the property.

It is recommended that:

The M2 Parcel be used for any purpose for which the land is suited. Any residual risk remaining as a result of this removal action will be managed thru a deed notice. This deed notice will provide information on notification requirements in the event an OE item is encountered.

This action has been conducted in accordance with Army Regulations 385-64 (Ammunition and Explosives Safety Standards), 405-90 (Disposal of Real Estate) and the DDESB approved Explosives Safety Submission.

Enclosure:

Ordnance and Explosives Final Removal Action Report  
M2 Parcel, Fort McClellan, Alabama

**Ordnance and Explosives Removal Action  
M2 Parcel, Fort McClellan, Alabama**

Foster Wheeler Environmental Corporation performed an ordnance and explosives (OE) clearance action to remove dangerous OE materials from the M2 Parcel located at Fort McClellan, Alabama. The work was executed in accordance with work plans approved by the Engineering and Support Center, Huntsville and with the Explosive Safety Submission approved by the Department of Defense Explosive Safety Board for this project, and was performed in a manner consistent with current accepted industry standards for detection and removal of dangerous OE materials. However, complete and total assurance that all potentially dangerous OE items have been removed is not possible. Therefore, residual OE contamination may still be present within the limits of the M2 parcel.

## MEMORANDUM OF AGREEMENT (MOA)

between

**U.S. Fish and Wildlife Service  
Region IV**

and

**U.S. Army Garrison  
Fort McClellan, AL**

### 1. Background.

a. Fort McClellan, Alabama, closed on 30 Sep 99 as a result of the 1995 Base Realignment and Closure (BRAC) decision. Active Army use of Fort McClellan will cease by that time. The Alabama National Guard and U.S. Army Reserves will maintain enclaves within the cantonment area and adjacent areas of Fort McClellan. The Alabama National Guard will retain Pelham Range to conduct training operations just west of Fort McClellan.

b. The Army supports the local community's desire for the U.S. Fish and Wildlife Service (Service) to establish a National Wildlife Refuge on undeveloped lands on Fort McClellan. The Service has proposed acquiring Fort McClellan lands to create the Mountain Longleaf National Wildlife Refuge (MLNWR) to enhance, manage and to protect America's best remaining example of the unique mountain longleaf pine ecosystem. At this time, the Service is considering several refuge options that may include up to 15,000 acres.

### 2. Objectives. The objectives of this Memorandum of Agreement (MOA) are:

a. To establish a natural and cultural resources management agreement for the undeveloped area of Fort McClellan until such time as the land is transferred to its future owner.

b. To define responsibilities for the U.S. Army (Army) and the Service for natural and archaeological resource management of Fort McClellan's undeveloped land.

c. To integrate the BRAC environmental restoration and ordnance and explosives removal programs with the Service MLNWR plans.

d. To encourage partnerships with agencies/organizations such as the Alabama Department of Conservation, Wildlife and Freshwater Fisheries to enhance the natural resources management of Fort McClellan lands to provide public recreational hunting and fishing.

e. To provide a mechanism to share resources, including personnel and equipment to meet stated objectives.

### 3. General Provisions.

a. Area of Management Responsibility (Management Area): The Service is responsible for implementing tasks under this MOA in the undeveloped areas of Fort McClellan defined as the Management Area (see map at enclosure 1). The Management Area includes undeveloped land defined as the "acquisition area" -- this is the minimum area that is expected to be transferred to the Service to establish a National Wildlife Refuge after environmental and safety actions are addressed. The acquisition area may change as negotiations between the Service and the Fort McClellan Development Joint Powers Authority (JPA) progress. Regardless of the changing size/location of the "acquisition area", the Service is responsible for managing the larger Management Area for the duration of this MOA or until the land is leased or transferred.

b. The Army retains authority and oversight of the management areas on Fort McClellan until the property is transferred to the Service.

c. The Army retains responsibility for ordnance and explosives (OE) and for all releases into the environment of hazardous substances, pollutants or contaminants and all hazardous wastes or hazardous constituents, which may present an imminent and substantial danger to public health or welfare, consistent with the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. §9601 et seq., the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), 40 CFR Part 300, the Defense Environmental Restoration Program (DERP), 10 U.S.C. §2701 et seq. and the Resource Conservation and Recovery Act (RCRA), 42 U.S.C. §6903 et seq. The Service has liability for any activities resulting in costs, penalties, fines, or performance of actions relating to noncompliance with any environmental law or related to the presence, release, or threat of release of any hazardous substance, pollutant or contaminant, hazardous waste, or hazardous material of any kind while on Fort McClellan.

d. Land use controls due to environmental remedy selection and/or ordnance and explosives will be developed by representatives from the Army Environmental Protection Agency (Region IV) and the Alabama Department of Environmental Management in coordination with the Service and with input from the Restoration Advisory Board. The Department of the Army must approve all land use controls.

e. Restoration, response and or removal activities may restrict natural resource management activities. The Army's Project Officer will identify any necessary restrictions to the Service's natural resource management activities. The Service will

provide technical advice to mitigate potential impacts to fish and wildlife resulting from cleanup actions.

t. The Service will not be responsible under any environmental laws for matters which are related directly or indirectly to activities of the Army at Fort McClellan or for activities of any party acting under the authority of the Army at Fort McClellan including;

(1) Costs or performance of response actions required under CERCLA at or related to Fort McClellan,

(2) Costs, penalties, fines, or performance of actions related to noncompliance with any environmental law at or related to Fort McClellan or related to the presence, release, or threat of release of any hazardous substances, pollutant, hazardous waste, or hazardous material of any kind, including unexploded ordnance and explosive ordnance at fort McClellan and,

(3) Costs or performance of actions necessary to remedy noncompliance or another problem specified in paragraphs 1) or 2) preceding.

g. The Service will inform all visitors of any explosive safety or human health hazards known to be a concern on Fort McClellan properties and will ensure that any surface disturbance of Fort McClellan properties adhere to Department of Defense Explosive Safety Board (DDESB) limitations. The Service will permit public access only to those areas that have been determined cleared of potential OE contamination, including unexploded ordnance (UXO) (see map at enclosure 2), pending DDESB approval of the Fort McClellan Site Safety Plan (SSP). Negotiation and modification to the MOA on how to implement the SSP will be addressed with the Service at the time the SSP is completed. Significant restrictions to public access for hunting, fishing and hiking may be a result of this SSP.

**4. Statement of Work (U.S. Fish and Wildlife Service).** The Service will develop and implement an integrated plan to conserve the mountain longleaf pine ecosystem and manage fish and wildlife resources of Fort McClellan's Management Area. The Service will conduct natural resource management practices within the scope of this MOA, and will, at a minimum, meet the standards in Army Regulation 200-3, Natural Resources - Land, Forest and Wildlife Management. Management practices include:

a. Manage, conserve and enhance fish, wildlife and forest resources with particular emphasis on endangered species and the mountain longleaf pine plant community.

b. Conduct habitat management practices designed to sustain species populations under an ecosystem management concept.

c. Make an effort to integrate the Alabama Department of Natural Resources, Division of Wildlife and Freshwater Fisheries, into a recreational hunting and fishing program.

- d. Develop and implement a prescribed burn plan for the conservation and enhancement of the mountain longleaf pine community. The Service will be responsible for fire control requirements resulting from prescribed burn procedures.
- e. Implement forest management practices designed to maintain ecosystem integrity
- f. Implement management practices to enhance the Special Interest Natural Areas containing unique and unusual biological communities.
- g. Assist Army personnel in prioritizing maintenance requirements for primary and secondary firebreaks to provide support for prescribed burns and fire suppression.
- h. Provide a designated representative to attend meetings as determined by the Commander, U.S. Army Garrison (USAG), Fort McClellan.
- i. Coordinate all Natural Wildlife Refuge planning activities with the Fort McClellan BRAC Environmental Coordinator to ensure there are no adverse impacts to the required BRAC clean-up procedures and to ensure clean-up goals are consistent with Service's plans to establish a National Wildlife Refuge. The Service shall participate in Restoration Advisory Board (RAB) meetings and provide briefings and information exchanges at BRAC Cleanup Team meetings, as requested.
- j. Implement management requirements in a manner consistent with the protection of all cultural and historic resources within the boundaries of the management area.
- k. Implement management requirements that protect endangered species IAW the Endangered Species Act, neotropical migratory birds IAW the Migratory Bird Treaty Act and State of Alabama species of concern and other natural resources.
- l. Invite other government agencies and organizations to assist in implementing natural resource management plans.
- m. Work toward the development of an integrated law enforcement plan for the protection of fish, wildlife and forest resources in the management area. The Service will report all observed violations to appropriate law enforcement personnel.
- n. Assist the Army in its responsibility to implement, monitor and enforce all BRAC land use controls.
- o. Provide Annual Report to the Commander, USAG, Fort McClellan, no later than 30 November each year. The report will describe all accomplishments for the previous fiscal year and the work plan for the current fiscal year.

p. Provide an itemized annual budget to the Commander, USAG, Fort McClellan, no later than 15 February each year. The proposed budget will project and justify the next fiscal year's funding work plan requirements to implement this MOA.

**5. Statement of Work (Army).** The Army shall:

a. Provide annual funding, as identified in Section 7 that represents Army's natural resource management costs.

b. Provide interim office space and equipment storage in the USAG Headquarters complex (building 215).

c. Provide natural resource management personnel and equipment to work in partnership with the Service as part of their local staff.

d. Coordinate law enforcement support for issues other than those resulting from public access being managed by the Service.

e. Coordinate fire suppression support for situations other than those resulting from prescribed burns being managed by the Service.

f. Assume overall responsibility to implement, monitor and provide enforcement for all BRAC ordnance and explosives and restoration land use controls and the protection of natural and cultural resources.

**6. Equipment.** The Army will maintain the following equipment and, in coordination with the Service, make it available for their use.

<u>ITEM</u>	<u>QUANTITY</u>
Chainsaws	4
Shovels (forest fire suppression)	12
Drip torches	6
Fire rakes	4
Fire swatters	7
Single bit ax	1
Desktop radio	1
Handheld radios with charger	4
Pagers with charger	4
Mobile radios	4
Disc harrow with wheels	1
Cultipacker	1
Seven foot bush hog mower	1
Tilt bed trailer	1
Agriculture tractor	4

Cone fertilizer distributor	1
Pickup trucks 4x4	3
Equipment transport truck	1
Bulldozer tractor (Case 850)	1
Bulldozer tractor (D7)	1
Lo-Boy tractor and trailer transport truck	1
Herbarium cabinet and specimen collection	1
Fire fighting trucks (brush, pumper)	2

## 7. Funding.

a. Funding for the management of the NWR will be requested by Commander, USAG, Fort McClellan, and will be included in the USAG's annual budget submission. Costs associated with Army personnel and equipment working in coordination with the Service will be identified separately from the Service's request. The Service's budget request will be validated based on an approved Army work plan and will not reflect costs for support provided by Army personnel and equipment.

b. The Army will transfer funds approved to support this MOA to the Service via Military Interdepartmental Purchase Request (MIPR) or other suitable accounting method.

c. Both parties recognize and agree that each agency must operate within federal budget requirements and legal restrictions concerning the obligation of funds. No provision of this agreement shall be construed to require the Army or the Service to obligate or to pay funds in disagreement with the Anti-Deficiency Act, 31 USC 1341, in any fiscal year for actions subject to this MOA.

d. The Service will notify the Commander, USAG, Fort McClellan, in writing by 15 August of funds that may not be obligated by 30 September each fiscal year. The Army will adjust its obligation accordingly.

## 8. Personnel.

a. Fort McClellan's USAG, Fort McClellan, will include natural resources personnel (forester and equipment operator). The USAG natural resources personnel will be assigned to provide the required support for National Wildlife Refuge as directed by the Service and approved by the Commander, USAG, Fort McClellan.

b. When the National Wildlife Refuge is established and the land transfer is completed, the U.S. Fish and Wildlife will make an effort to hire qualified USAG, Fort McClellan personnel to permanent USFWS positions through the lateral transfer process or other approved procedures.

**9. Project Officers.** Project Officers are the individuals appointed by each party who have the responsibility for its terms, including the Statement of Work. Project Officers have the authority to agree and approve technical changes within the Statement of Work. Project Officers are:

Mr. Ron Levy  
U.S. Army  
Fort McClellan, Alabama  
256-848-3539

Mr. Bill Garland  
U.S. Fish and Wildlife Service  
Fort McClellan, Alabama  
256-848-6833

**10. Modifications.**

a. Modifications to this MOA that are beyond the technical scope, or increase/decrease in the cost of the work, will be made in writing and signed by the respective approving authorities prior to implementation. Correspondence provided by the parties will be considered part of this MOA when countersigned by the receiver and returned to the sending party.

b. This MOA encourages partnerships that enhance the natural resource management of Fort McClellan lands. Other agencies and organizations dedicated to natural resource management and environmental restoration of Fort McClellan lands may become parties to this MOA or they may engage in sub-agreements with the primary agencies as long as those agreements are within the Statement of Work, or such sub-agreements comply with a. above.

**11. Dispute Resolution Procedure.** If the Fort McClellan Project Officer and the Service on-site manager are unable to resolve a dispute then either party may initiate a dispute resolution meeting between the Commander, USAG, Fort McClellan and the Director, Region IV, U.S. Fish and Wildlife Service.

**12. Authorities.**

- a. Economy Act.
- b. Endangered Species Act, Title 16, U.S.C. 1531-1544.
- c. The Sikes Act, as amended, Title 16, U.S.C. 670a -670o.
- d. Army Regulation 200-3; Natural Resources - Land, Forest and Wildlife Management.
- e. National Wildlife Refuge System Administration Act of 1966.
- f. Fish and Wildlife Coordination Act, Title 16 U.S.C. 661-667e.

- g. Intergovernmental Personnel Act, Title 42, U.S.C. 4701.
- h. National Historical Preservation Act, Title 16, U.S.C. 470.
- i. National Wildlife Refuge System Improvement Act of 1997.

**13. Effective Dates and Termination.**

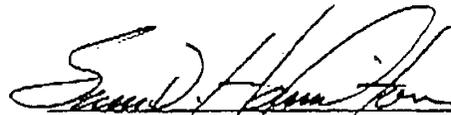

- a. This agreement will become effective on 1 October 1999.
- b. This MOA expires when the Service establishes the MLNWR or on 30 September 2002, whichever is earlier, unless both parties sign a revised agreement prior to that date.
- c. Termination. Each party may terminate its participation in this MOA at the end of any fiscal year. The terminating party must provide written notice to the other party by April 1 of the same fiscal year.
