The Alabama Department of Environmental Management has reviewed your certification received on 11/12/2004 and has assigned the Certification Number for this waste as shown above. In your certification you requested one or more landfills be approved to receive your waste. Based on our review of the waste and the landfills requested, the waste is approved for disposal in the following landfills:

Onyx Cedar Hill Landfill

58-01

You may view the information on the landfill(s) listed above on the ADEM website at www.adem.state.al.us/LandDivision/SolidWaste/Reports/Landfill.htm. You should provide this approval letter to the landfill to be used and contact the landfill to determine any special handling requirements for this waste prior to delivery to the landfill. According to ADEM regulations, the landfill may not receive this waste unless it has received a waste certification approval.

If this waste will be generated on a routine basis (not a one-time occurrence), another written certification of this waste should be submitted to ADEM prior to expiration of the certification number. Each recertification submitted should include a completed Solid Waste Profile Sheet, any supporting documentation, and the appropriate fee. This approval letter does not exempt US Army Garrison from complying with applicable requirements of the ADEM Hazardous Waste Program regulations.

If you submitted the certification via facsimile, hard copies of all documents should be forwarded to ADEM as soon as possible.

If you have any questions concerning this approval or the approval process, please contact Ms. Lynn T. Roper at 334-271-7728.

Sincerely,

Phillip D. Davis, Chief
Industrial Hazardous Waste Branch
