Re: IT, May 2002, Final Site Investigation Report, Artillery and Mortar Impact Areas South of Bains Gap Road, Parcels 138Q-X, 139Q-X, 140Q-X, 141Q-X, and 142Q-X  
IT, May 2002, Final Decision Document for the Artillery and Mortar Impact Areas South of Bains Gap Road, Parcels 138Q-X, 139Q-X, 140Q-X, 141Q-X, and 142Q-X

In accordance with the Memorandum of Agreement signed May 29, 2003, the U.S. Fish & Wildlife Service has reviewed the above referenced documents and is providing the following comments.

The Service concurs with the No Further Action recommendation on the subject parcel concerning chemical constituents. The Service believes that it is unlikely that the relatively low levels of contaminants will interfere with the purposes for which Mountain Longleaf National Wildlife Refuge was established. Unexploded ordnance issues within these parcels will be addressed by the Service during its review of the Charlie Area EE/CA.

If you have any questions regarding these comments please contact Stephen Miller, Refuge Manager, Mountain Longleaf National Wildlife Refuge at 256-848-7085 or email at [stephen\\_a\\_miller@fws.gov](mailto:stephen_a_miller@fws.gov).

Sincerely,

Stephen Miller  
Refuge Manager  
Mountain Longleaf National Wildlife Refuge
